

## A Buyer's Guide

This guide walks you through everything from creating your account to buying a test, taking it, and understanding your results on testmandi.in.

### 1 Register as a Buyer

---

1. Go to **testmandi.in**.
2. Click "**Log in / Register**" in the top-right corner.
3. Select "**Buyer**" (not Seller or Advertiser).
4. Fill in your name, email, phone number, and a password (at least 8 characters).
5. If a friend referred you, enter their **referral code** in the optional field — you'll both benefit later (see Section 7).
6. Click **Register**.

You're logged in immediately.

### 2 Verify Your Email

---

- An amber banner appears after registering: "*Please verify your email address.*"
- Check your inbox for a TestMandi email with a **Verify email** link and click it.
- Didn't get it? Click "**Resend email**" in the banner.

### 3 Browse the Marketplace

---

The homepage shows every available test:

- **Search** by test title or seller name.
- **Filter by category** — NEET, JEE Main, UPSC CSE, SSC CGL, Banking, School Boards, State PSC, and more.
- **Sort** by rating or price.
- Each test card shows its price, number of questions, duration, seller name, and star rating.
- Look out for "**Best value**" **bundles** — multiple tests packaged together at a discount.
- Occasional **sponsored banners** may appear at the top of the page or a category — clearly marked "Sponsored."

## 4 Buy a Test

---

1. Click **Buy** on any test (or **Buy bundle** for a bundle).
2. A secure checkout opens.
3. If you have an unused **referral reward** (see Section 7), you'll see a checkbox to apply **50% off** this purchase.
4. If the seller has given you a **coupon code**, enter it in the optional coupon field — the discount is applied automatically.
5. Pay via UPI, card, or netbanking.
6. Once payment succeeds, the test unlocks immediately in **My Learning**.

*Some tests are free (₹0) — for these, clicking Buy unlocks it instantly with no payment step.*

## 5 Take the Test

---

1. Go to **My Learning** and click **Start test** on anything you've purchased.
2. Answer questions using the numbered palette to jump between them.
3. A **live countdown timer** counts down the test's duration — the test **automatically submits** whatever you've answered so far the moment time runs out, so keep an eye on it.
4. Click **Submit test** when you're done (or let the timer do it for you).

## 6 Understand Your Score Report

---

After submitting, you'll see:

- **Accuracy** and **time taken**
- How you compare to your **previous best attempt** on the same test, with a "New personal best!" callout when you earn one
- Your **percentile among every candidate** who has taken that test — shown as "Beat X% of candidates"
- A **topic-wise breakdown** chart showing exactly which topics you got right or wrong
- A **question-by-question review** with the correct answer and explanation for anything you missed
- An **improvement chart** across your attempts, once you've retaken a test more than once
- **Reviews from other candidates** who've taken the same test
- **Similar tests** in the same category, if you want more practice
- An encouraging note based on how you did

You can **retake** any purchased test as many times as you like — each attempt gets its own report.

## 7 Rate Tests, and Refer Friends to Earn

---

- After viewing your score report, rate the test 1–5 stars and optionally **write a short review** — both help other buyers choose well, and your review shows up for others taking the same test.
- In **My Learning**, find your "**Refer & earn**" panel. It shows:

- Your personal **referral code** and a shareable invite link (copy it, or share directly on WhatsApp)
- How many friends you've referred
- Any **rewards available** — once someone you referred makes their **first purchase**, you automatically get a 50%-off reward for your own next purchase, applied at checkout.

## 8 Managing Your Account

---

- **Forgot your password?** Click "Log in / Register" → "Forgot password?", enter your email, and follow the reset link sent to your inbox.
- Your purchase history and every attempt you've made live permanently under **My Learning**.

## 9 Track Your Progress Over Time

---

In **My Learning**, switch to the "**My Progress**" tab to see:

- **Tests attempted, total attempts, questions answered**, and your **overall accuracy** across everything you've ever taken
- An **accuracy trend chart** showing whether you're improving over time
- Your **weakest topics aggregated across every test** — not just one report — so you know exactly what to revise next, even if it came up on a test you took weeks ago

## 10 Join a Live Test

---

Some sellers schedule tests as **live events**, shown in a "**Live tests**" section on the Marketplace:

- **Upcoming** sessions show when they'll start.
- **Live now** sessions can be joined immediately if you already own that test — click **Join live test**. If you don't own it yet, click **Buy to join**.
- Once the session's join window closes, click **View leaderboard** to see the final rankings — everyone who joined is ranked by score, then by speed.

## 11 All-Access Passes — Unlock Everything From One Seller

---

Instead of buying tests one at a time, some sellers offer an **all-access pass** — unlimited access to every test they sell, for a fixed price and duration. Look for the "**All-access passes**" section on the Marketplace, and click **Get this pass**. Once purchased, every test from that seller unlocks automatically — no need to buy them individually. The pass doesn't auto-renew; buy it again anytime to extend your access.

## 12 Wishlist

---

Click the **heart icon** on any test card to save it for later without buying it yet. Click it again to remove it.

### Tips for Getting the Most Out of TestMandi

- Check a test's **rating and number of ratings** before buying — it's a real signal of quality.
- Use the **topic-wise breakdown** after every attempt to focus your next study session on your weakest areas, not just your overall score.
- **Bundles** are usually the best value if you know you'll want more than one test in a category.
- Share your referral link with classmates — it's the easiest way to unlock 50% off your next test.
